Dispose Of Virtually Every Kind Of Printers' Ink

- SPECIALTY INKS • OFFSET INKS
- FLEXOGRAPHIC INKS
- LETTERPRESS INKS
- UV/EB INKS • GRAPHIC ARTS COATINGS
- GRAVURE INKS • INK-JET INKS
- HEAT-SET INK • RUBBER INKS
- SECURITY INKS • WATER-BASED INKS

The printing industry processes roughly 2 billion pounds of ink, containing 1,900 tons of lead, every year.

Now printers can be assured their hazardous and non-hazardous waste will be disposed of in an environmentally sound, ecologically safe manner.

All waste materials are manifested and transported directly to the permitted and insured TSDF for proper disposal.
