

Customer Care Program - Safety Data and Equipment Available:

Safety Data:

- As part of Stone Environmental Services customer care program, we encourage all of our customers to review the safety data sheet with their employees and use the suggested safety equipment.
- Safety equipment includes, but not limited to chemical gloves, respirators, and safety glasses.
- In order to keep you and your employee's safe, we suggest that you do air monitoring around the degreasing unit once a year to ensure that the levels are low enough to meet regulatory requirements.

Safety Equipment Kit

Stone Environmental Services strongly encourages all its solvent customers to use the following kit for handling any liquid and solid waste materials. These kits are available to purchase from Stone Environmental Services, just give us a call at **866-262-2326**. See the list below for the contents of the kit:

- Honeywell 5500 Half Mask with Organic Vapor Filters
- Safety Glasses
- Barrier Chemical Resistant Gloves

The safety equipment can be purchased directly from Grainger.

Please call 866-262-2326 for more information.

Stone Environmental Services will provide 1 free Air Monitor Kit per year upon your request.

Kit includes:

- 3 - Organic Vapor Sensors and Attached Clips
- 3 - Mailing Envelopes and Analysis Forms
- Directions for Use and Analysis
